Toronto, ON, Canada | 437-559-5449 | [pai24rohit@gmail.com](mailto:pai24rohit@gmail.com) | [LinkedIn](#) | [Portfolio](#)

## TECHNICAL SKILLS

### Cloud & Infrastructure

Microsoft Azure  
AWS  
VMware  
Docker  
Kubernetes  
Windows  
Linux

### Microsoft Technologies

Microsoft 365  
Entra ID (Azure AD)  
Exchange Online  
SharePoint Online  
Microsoft Teams

### IT Service Management

ServiceNow  
Jira  
ITIL  
Incident Management  
Problem Management  
Change Management

### Systems & Networking

Cisco CUCM  
TCP/IP  
DNS  
DHCP  
VPN Support

### Monitoring & Operations

SolarWinds  
Kibana  
New Relic

### Automation & Scripting

Python  
SQL

## CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900)

## EDUCATION

### George Brown College

PG Diploma – Artificial Intelligence (2025)

### George Brown College

PG Diploma – Cloud Computing (2023)

### Rajiv Gandhi Institute of Technology

B.E. – Electronics & Telecommunications

## PROFESSIONAL SUMMARY

IT Operations and Cloud Support professional with 4+ years of experience supporting global enterprise environments across cloud infrastructure, collaboration platforms, and production operations. Combines hands-on enterprise support experience with postgraduate education in Cloud Computing and Artificial Intelligence from George Brown College, bringing a unique blend of operational expertise, automation mindset, and emerging technology knowledge.

## PROFESSIONAL EXPERIENCE

### Orange Business Services

#### Technical Consultant

January 2019 – November 2022

- Provided Level 2 technical support for enterprise cloud, network, voice, and collaboration environments supporting international clients.
- Managed incidents, major incidents, problems, and changes in accordance with ITIL best practices while maintaining SLA compliance.
- Utilized ServiceNow to log, prioritize, track, and escalate incidents while coordinating with Level 3 engineers and external vendors.
- Performed root cause analysis for recurring issues across Cisco CUCM, Microsoft Teams, and enterprise collaboration platforms.
- Monitored infrastructure performance using SolarWinds and operational dashboards to proactively identify and resolve service issues.
- Collaborated with global engineering teams on cloud migration and hybrid infrastructure initiatives.

### Semper8 International

#### AI Analysis Intern (Co-op)

September 2024 – December 2024

- Conducted machine-learning-based sentiment analysis and data analytics to support business intelligence initiatives.
- Used Python and SQL to clean, transform, and analyze structured and unstructured datasets.
- Created dashboards, visualizations, and reports to communicate findings to technical and business stakeholders.

## TECHNICAL PROJECTS

### ***Nginx AI Guard – AI-Assisted Threat Detection & Response System***

*Personal Project | 2026*

- Developed an AI-assisted security tool to monitor Nginx access logs and identify suspicious activity in real time using Python.
- Implemented automated threat scoring and IP blocking mechanisms to proactively respond to malicious requests.
- Integrated OpenAI-assisted classification and operational safeguards including whitelist management, dry-run testing, and duplicate-block prevention.

### ***Cloud Deployment Project***

*George Brown College*

- Deployed a containerized web application using AWS, Docker, and Kubernetes to demonstrate scalable cloud deployment practices.
- Configured container orchestration workflows and supporting cloud infrastructure to improve application reliability and maintainability.
